

Dastard Inc - Petrification Department

Amber Scenescent MSc

Last updated: 05/04/2022

Project Nublar

Experimental fossil-based individuals
Code name: Project Nublar

Justification

To provide a modern reinvigoration of deceased individuals from deoxyribonucleic acid.
To better understand the limitations and advantages of evolutionary extinctions.

Development

Assignment: **Amber**
Email amber.scenescent@dastard.inc

Collaboration:

- Erika
Email erika.definitelynotanerinyes@dastard.inc

Onset: Availability of fossilized patients
Duration: Continuous

Data

To input patient data

Instance	n	Biome	Location
1	a	b	c
2	x	y	z

Protocol

I suspect the necessity for a magic man, but I could be proven wrong.

Sustainability

See Project Puppies & Project Kitties, subsection Sustainability.

All experimental patients will receive the same benefits as core project patients. Experimental patients will have high frequency checks for health progression and project-specific development.
