Amber Scenescent MSc

Last updated: 03/04/2022

Petrification Department

Project Engorgio

Experimental enlarging of petrified patients

Code name: Project Engorgio

Justification

To assist the military force to combat Mithril Industries and/or any other potential devastators of life. [See Project Puppies & Project Kitties, subsection Justification.]

To provide individuals with the choice of enhanced continuation of life, in the instance of clinical necessity. [See Project Puppies & Project Kitties, subsection Sustainability, subsection General health.]

Development

Assignment: **Amber**

Email amber.scenescent@dastard.inc

Collaboration:

- Erika
Email erika.definitelynotanerinyes@dastard.inc

- Dr D
Email ceo@dastard.inc

Onset: Patient availability

Duration: Update with general petrification/depetrification protocol progression

Data

To input patient data

| Instance | Enlargement factor | n _{Puppies} | n _{Kitties} | Biome | Location |
|----------|--------------------|----------------------|----------------------|-------|----------|
| 1 | a | b | c | d | e |
| 2 | v | w | x | y | z |

Protocol

I suspect the necessity for a magic man, but I could be proven wrong.

Sustainability

See Project Puppies & Project Kitties, subsection Sustainability.

All experimental patients will receive the same benefits as core project patients. Experimental patients will have high frequency checks for health progression and project-specific development.
